

Forklift Electrical Part

Electrical Part for Forklifts - Lift trucks as well as different lift trucks may have specific labels used in some hazardous locations. The label indicates that this certain model of lift truck meets the minimum standards of ANSI/UL 553 meant for electric forklifts or ANSI/UL 558 meant for internal combustion engine forklifts.

The use for labels meant for lift forklifts can be found in National Fire Protection Association NFPA 505 - Powered Industrial trucks including: Type Designations, Areas of Use, and Maintenance and Operation. Ask your local insurance carrier and Fire Marshall for further information concerning the permitted uses of industrial powered trucks in your application.

If the forklift has been found to meet the outlined criteria, the following labels may be attached. A marked truck would have the type designation put on the lift truck nameplate and would have one of the following labels placed.
