

Lull Telehandler Parts

Lull Telehandler Part - Telehandlers by Lull have been providing load placement precision ever since the year 1959. The Lull telehandler could really help make the task faster and easier, whether the job entails transferring loads, positioning heavy steel or landing loads on scaffoldings. These units are complete together with the patented Stabil-Trak stability system in order to ensure operator confidence.

The horizontal placement system by Lull can supply eighty inches of boom travel for precision placement capabilities. There are even various optional Lull attachments for their telehandlers so as to help finish whichever task.
