

Concrete Hoppers

Concrete Hopper - This attachment is a self-dumping hopper which automatically starts to unload as bumper release contacts the side of a dumpster. After unloading is completed, the hopper goes back to an upright and locked position. This piece of machinery is also offered along with a cable that enables operation from the seat of the forklift so as to have the alternative of manually unloading the hopper. There is a locking chain provided to be able to lock the hopper to the tine truck. This product is made with reliable and consistent robotic welds for maximum strength. The lift truck dumping hopper also has a blue powder coat finish to maintain durability.
