Capacities of these numerous truck versions range from 3,000 to 33,000 lbs. All vehicles are designed in an ISO 9001 certified facility.

Doosan Infracore America is the fastest growing lift truck business in the North American marketplace, due to their reliability in maintaining a high degree of client service quality and optimum product functioning to all Doosan Infracore Forklift users. The U.S. lift Truck division situated in Cleveland has a expert team knowledgeable in Product Sales, Purchasing, Advertising, Logistical and Technical Support.

Initially the domestic lift truck market in Korea was an open import enterprise. Korea Machinery Co. Ltd. began in 1960, to import fully assembled lift trucks as part of a domestic equipment expansion venture. Sales of these products were originally targeted to state-run corporations, large scale organizations, and the armed forces. This eventually led to a merger with Daewoo Heavy Industries Ltd. In 1976, the Forklift Division commenced trade operations throughout Korea to service and sell this heavy equipment. By 1978, a forklift manufacturing plant was successfully completed. Continuous technical instruction became the new focus for improving quality and product development.

Domestic forklift business for Daewoo started in 1967 and grew to an amazing 90% market share in Korea. By the 1980's, Daewoo's advanced technological advancements combined with sales success placed them in a position of substantial expansion of their lift truck operations.

In 1981, Caterpillar Industrial Inc. of the United States, proposed a joint enterprise project to counter act competitive pressures in the US materials handling market. This plan greatly expanded Daewoo's forklift sales. Construction was completed in 1984 to facilitate a new plant which helped establish the business for the manufacture of high added-value goods suited for export. In 1993, the corporation had a international sales system and started exporting designs they had developed through in-house expertise, as an sovereign brand. Certifications were then acquired from CE of Europe, UL of the United States and ISO 14001 and ISO 9001, securing growth possibilities into international marketplaces.
